ESET PureFixÂ . ESET PureFix V2.02 Crack [With Serial Key]Â . ESET PureFix V2.04 Crack.ESET PureFix V2.06.ESET PureFix V2.02.exeÂ . 1. Field of the Invention The present invention relates to an image pickup apparatus for reading image data obtained by photoelectric conversion in a plurality of rows, and an image processing system capable of easily performing editing and the like. 2. Related Background Art FIGS. 1 to 6 are diagrams showing the conventional arrangement of image data obtained by photoelectric conversion.

Referring to FIG. 1, the image data is obtained by photoelectric conversion of one row of pixels at the same time, and has image data of N-1 pixels (N is a natural number). FIG. 2 is an example of FIG. 1 in which the image data of one row is obtained by reading N different photoelectric conversion regions for one pixel, and one line of image data of N pixels is outputted at one time. The image data of one line is outputted after N identical image data of one pixel is obtained. FIG. 3 is an example of FIG. 1 in which the image data of one row is obtained by reading N different photoelectric conversion regions for one pixel, and a plurality of lines of image data of N pixels are outputted at one time. The image data of one line is outputted after N identical image data of one pixel are obtained. FIG. 4 is an example of FIG. 1 in which the image data of one row is obtained by reading N different

photoelectric conversion regions for one pixel, and the image data of one line is obtained by photoelectric conversion of M pixels (M is an integer greater than N). FIG. 5 is an example of FIG. 4 in which the image data of one line is obtained by photoelectric conversion of M pixels (M is an integer greater than N). FIG. 6 is an example of FIG. 4 in which the image data of one line is obtained by photoelectric conversion of N pixels (N is a natural number). In the image data, there are image data at a desired position (hereinafter referred to as "desired data") and image data which is not desired (hereinafter referred to as "undesired data"). The desired data is data belonging to a portion in which data having good fidelity (which will be
